1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: $C_{12}H_6N_4O_6SNa_2\cdot\frac{1}{2}H_2O$

Batch Molecular Weight: 407.26

Physical Appearance: Dark brown solid

Solubility: Water to 100 mM

Storage: Store at -20°C

2. ANALYTICAL DATA

HPLC: Shows 99.5% purity

$^1$H NMR: Consistent with structure

Mass Spectrum: Consistent with structure

Microanalysis:

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use
Product Name: NBQX disodium salt
Catalog No.: 1044 Batch No.: 38
CAS Number: 479347-86-9
IUPAC Name: 2,3-Dio xo-6-nitro-1,2,3,4-tetrahydrobenzo[f]quinoxaline-7-sulfonamide disodium salt

Description:
Potent, selective and competitive AMPA receptor antagonist. Neuroprotective and anticonvulsant; active in vivo. More water soluble disodium salt of NBQX (Cat. No. 0373).

Physical and Chemical Properties:
Batch Molecular Formula: C_{12}H_{13}N_{4}O_{8}SNa_{2}·1½H_{2}O
Batch Molecular Weight: 407.26
Physical Appearance: Dark brown solid
Minimum Purity: >98%
Batch Molecular Structure:

Storage: Store at -20°C

Solubility & Usage Info:
Water to 100 mM
CAUTION - This product is hygroscopic and we recommend that it is desiccated upon arrival. Solutions should be made up as soon as the vial is opened. This product may take on an orange to red colouration if hydrated. This will not affect product quality. When purchased as a 1mg unit, this product is supplied as a lyophilized solid and may be very hard to visualize. Solutions should be made by adding solvent directly to the vial. The vial should then be vortexed vigorously to ensure the product has completely dissolved.

Stability and Solubility Advice:
Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).
Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:
SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.
SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
