1. PHYSICAL AND CHEMICAL PROPERTIES

- **Batch Molecular Formula:** $\text{C}_{29}\text{H}_{40}\text{N}_{2}\text{O}_{9}$
- **Batch Molecular Weight:** 560.64
- **Physical Appearance:** Orange solid
- **Solubility:** DMSO to 10 mM
- **Storage:** Desiccate at -20°C

![Batch Molecular Structure Image]

2. ANALYTICAL DATA

- **HPLC:** Shows 99.0% purity
- **Mass Spectrum:** Consistent with structure

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use
Product Name: Geldanamycin
Catalog No.: 1368
Batch No.: 5

CAS Number: 30562-34-6
IUPAC Name: 9,13-Dihydroxy-8,14,19-trimethoxy-4,10,12,16-tetramethyl-2-azabicyclo[16.3.1]docosa-4,6,10,18,21-pentaene-3,20,22-trione, 9-carbamate

Description:
Selectively inhibits heat shock protein 90 (Hsp90). Binds to the ATP site of Hsp90 ($K_d = 1.2 \, \mu M$) and inhibits its chaperone activity. Consequently inhibits activities of oncogenic kinases (e.g. src, Raf), p53 and steroid receptors. Demonstrates antiproliferative effect on breast cancer stem-like cells.

Physical and Chemical Properties:
Batch Molecular Formula: $C_{30}H_{40}N_2O_9$
Batch Molecular Weight: 560.64
Physical Appearance: Orange solid
Minimum Purity: >98%

Storage: Desiccate at -20°C
CAUTION - This product is light sensitive and we recommend that the solid material and any solutions obtained are protected from exposure to light.

Solubility & Usage Info:
DMSO to 10 mM
This product is supplied as a lyophilized solid and may be very hard to visualize. Solutions should be made by adding solvent directly to the vial. The vial should then be vortexed vigorously to ensure the product has completely dissolved.

Stability and Solubility Advice:
Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).
Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:
SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.
SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
