**Description:**

Celecoxib is a selective cyclooxygenase-2 (COX-2) inhibitor (IC<sub>50</sub> values are 15 and 0.04 μM for COX-1 and COX-2 respectively). Celecoxib is an anti-inflammatory with shorter plasma half-life in vivo than SC 58121 (Cat. No. 2895). Displays chemopreventive activity in in vivo tumor models.

**Stability and Solubility Advice:**

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:

**SOLIDS:** Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

**SOLUTIONS:** We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
