1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: \( C_{22}H_{31}NO_5S \)
Batch Molecular Weight: 421.55
Physical Appearance: White lyophilised solid
Solubility: DMSO to 10 mM
Storage: Store at -20°C

2. ANALYTICAL DATA

HPLC: Shows 96.3% purity
Product Name: Latrunculin A
Catalog No.: 3973
Batch No.: 7

CAS Number: 76343-93-6
IUPAC Name: 4-[(1R,4Z,8E,10Z,12S,15R,17R)-17-Hydroxy-5,12-dimethyl-3-oxo-2,16-dioxabicyclo[13.3.1]nonadeca-4,8,10-trien-17-yl]-2-thiazolidinone

Description:
Reversible inhibitor of actin assembly; blocks actin adenine nucleotide exchange. Complexes with actin in vitro and interacts with actin monomers only, unlike cytochalasins. Prevents actin repolymerization into filaments and disrupts the actin cytoskeleton.

Physical and Chemical Properties:
Batch Molecular Formula: C_{22}H_{37}NO_5S
Batch Molecular Weight: 421.55
Physical Appearance: White lyophilised solid

Batch Molecular Structure:

Storage: Store at -20°C. This product is packaged under an inert atmosphere.
CAUTION - This product is light sensitive and we recommend that the solid material and any solutions obtained are protected from exposure to light.

Solubility & Usage Info:
DMSO to 10 mM
This product is supplied as a lyophilized solid and may be very hard to visualize. Solutions should be made by adding solvent directly to the vial. The vial should then be vortexed vigorously to ensure the product has completely dissolved.

Stability and Solubility Advice:
Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).
Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:
SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.
SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
