

Product Name: 6-Bnz-cAMP sodium salt

Catalog No.: 5255

Batch No.: 4

CAS Number: 1135306-29-4

IUPAC Name: *N*-Benzoyladenine cyclic 3',5'-(hydrogen phosphate) monosodium salt

1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: C₁₇H₁₅N₅NaO₇P

Batch Molecular Weight: 455.29

Physical Appearance: solid

Solubility: water to 100 mM

Storage: Store at -20°C

Batch Molecular Structure:

2. ANALYTICAL DATA

HPLC: Shows 99.7% purity

Mass Spectrum: Consistent with structure

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

Product Name: 6-Bnz-cAMP sodium salt

Catalog No.: 5255

Batch No.: 4

CAS Number: 1135306-29-4

IUPAC Name: N-Benzoyladenosine cyclic 3',5'-(hydrogen phosphate) monosodium salt

Description:

6-Bnz-cAMP sodium salt is a cell permeable cAMP analog; selectively activates cAMP-dependent PKA but not Epac signaling pathways. Acts synergistically with 8-CPT-2Me-cAMP (Cat. No. 1645) to inhibit vascular smooth muscle cell proliferation.

Physical and Chemical Properties:

Batch Molecular Formula: C₁₇H₁₅N₅NaO₇P

Batch Molecular Weight: 455.29

Physical Appearance: solid

Minimum Purity: ≥98%

Batch Molecular Structure:

Hewer *et al* (2011) PKA and Epac synergistically inhibit smooth muscle cell proliferation. *J.Mol.Cell Cardiol.* **50** 87. PMID: 20971121.

Storage: Store at -20°C

Solubility & Usage Info:

water to 100 mM

This product is supplied in lyophilized form. It may appear as a solid, gel or film and be very hard to visualize. Solutions should be made by adding solvent directly to the vial. The vial should then be vortexed vigorously to ensure the product has completely dissolved.

Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. *Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use
