

Certificate of Analysis

Product Name: 2-Phospho-L-ascorbic acid trisodium salt
CAS Number: 66170-10-3
IUPAC Name: 2-(Dihydrogen phosphate)-L-ascorbic acid sodium salt

Catalog No.: 5778 **Batch No.:** 1

1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: $C_6H_6Na_3O_9P \cdot 2\frac{1}{4}H_2O$
Batch Molecular Weight: 362.58
Physical Appearance: White solid
Solubility: water to 100 mM
Storage: Desiccate at RT
Batch Molecular Structure:

2. ANALYTICAL DATA

HPLC: Shows 98.8% purity
¹H NMR: Consistent with structure
Mass Spectrum: Consistent with structure

Microanalysis:

	Carbon Hydrogen Nitrogen		
Theoretical	19.88	2.92	
Found	19.77	2.82	

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

Product Name: 2-Phospho-L-ascorbic acid trisodium salt
CAS Number: 66170-10-3
IUPAC Name: 2-(Dihydrogen phosphate)-L-ascorbic acid sodium salt

Catalog No.: 5778 **Batch No.:** 1

Description:

Stable ascorbic acid derivative used in cell culture; in combination with FGF-2, maintains differentiation potential in bone marrow-derived mesenchymal stem cells (MSC) through increased expression of HGF. Also exhibits synergistic protection of hMSCs under oxidative stress in combination with N-acetylcysteine (Cat. No. 5619).

Physical and Chemical Properties:

Batch Molecular Formula: C₆H₆Na₃O₉P·2¼H₂O
 Batch Molecular Weight: 362.58
 Physical Appearance: White solid

Minimum Purity: >95%

Batch Molecular Structure:

Storage: Desiccate at RT

Solubility & Usage Info:

water to 100 mM

Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. Our standard recommendations are:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
