

Batch No.: 3

# **Certificate of Analysis**

www.tocris.com

Catalog No.: 6585

Product Name: L-Azidonorleucine hydrochloride

CAS Number: 1454334-76-9

IUPAC Name: (S)-2-Amino-6-azidohexanoic acid hydrochloride

#### 1. PHYSICAL AND CHEMICAL PROPERTIES

**Batch Molecular Formula:**  $C_6H_{12}N_4O_2.HCI$ 

Batch Molecular Weight: 208.65

Physical Appearance: White solid

Solubility: water to 100 mM Storage: Store at -20°C

**Batch Molecular Structure:** 

HCI

#### 2. ANALYTICAL DATA

<sup>1</sup>H NMR: Consistent with structure

Mass Spectrum: Consistent with structure

**Optical Rotation:**  $[\alpha]_D = +13.9$  (Concentration = 1, Solvent = Water)

## **Product Information**

Print Date: Aug 4th 2023

Product Name: L-Azidonorleucine hydrochloride

CAS Number: 1454334-76-9

IUPAC Name: (S)-2-Amino-6-azidohexanoic acid hydrochloride

#### **Description:**

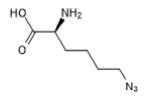

L-Azidonorleucine hydrochloride is an unnatural amino acid; methionine surrogate. Can be incorporated into proteins by a mutant methionyl tRNA synthetase to enable cell-type specific analysis of protein synthesis. For use with bio-orthogonal non-canonical amino-acid tagging (BONCAT) or fluorescent non-canonical amino acid tagging (FUNCAT). Labeling does not affect the normal localization of the labeled proteins.

#### **Physical and Chemical Properties:**

Batch Molecular Formula: C<sub>6</sub>H<sub>12</sub>N<sub>4</sub>O<sub>2</sub>.HCl

Batch Molecular Weight: 208.65 Physical Appearance: White solid

#### **Batch Molecular Structure:**

HCI

Storage: Store at -20°C

#### Solubility & Usage Info:

water to 100 mM

### Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Catalog No.: 6585

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. \*Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
