### Product Name: DOTAP

Catalog No.: 7179 Batch No.: 1

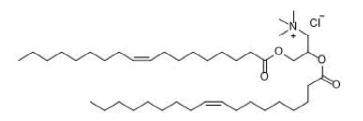

CAS Number: IUPAC Name: 132172-61-3

e: *N,N,N*-Trimethyl-2,3-bis(oleoyloxy)propan-1-aminium chloride

# 1. PHYSICAL AND CHEMICAL PROPERTIES

Batch Molecular Formula: Batch Molecular Weight: Physical Appearance: Solubility: C<sub>42</sub>H<sub>80</sub>CINO<sub>4</sub> 698.54 White solid ethanol to 100 mM chloroform to 100 mM Store at -20°C

Storage: **Batch Molecular Structure:** 

2. ANALYTICAL DATA HPLC:

Shows 99.1 % purity

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

#### Product Name: DOTAP

Catalog No.: 7179

1

IUPAC Name: *N*,*N*,*N*-Trimethyl-2,3-bis(oleoyloxy)propan-1-aminium chloride

#### **Description:**

CAS Number:

DOTAP is a cationic agent used in liposome formation. Facilitates the transfection of DNA, RNA, and other molecules with negative charges into eukaryotic cells. Can be used to generate selective organ-targeting (SORT) lipid nanoparticles. For more information on how to prepare MC3 lipid nanoparticles for RNA delivery, please see our protocol.

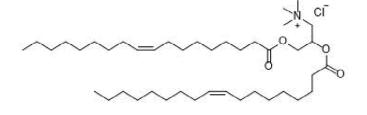

132172-61-3

#### **Physical and Chemical Properties:**

Batch Molecular Formula:  $C_{42}H_{80}CINO_4$ Batch Molecular Weight: 698.54 Physical Appearance: White solid

#### Minimum Purity: ≥95%

#### **Batch Molecular Structure:**

#### Storage: Store at -20°C

CAUTION - This product is light sensitive and we recommend that the solid material and any solutions obtained are protected from exposure to light.

#### Solubility & Usage Info:

ethanol to 100 mM chloroform to 100 mM

#### Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. \*Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.
