

Certificate of Analysis

www.tocris.com

Product Name: Tissue Clearing Pro Reagent 1

Catalog No.: 7563

Batch No.: 2

1. PHYSICAL AND CHEMICAL PROPERTIES

Physical Appearance: Clear liquid

Storage: Store at RT

2. ANALYTICAL DATA

Appearance : Clear, colourless liquid

Refractive index : 1.497

Water: 0.1%

Max Absorbance 450nm - 750nm: 0.01 AU

Max Fluorescence Emission 450nm - 750nm: 1 IU

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

Product Name: Tissue Clearing Pro Reagent 1**Catalog No.:** 7563**2****Description:**

Tissue Clearing Pro is a solvent-based tissue clearing technique, comparable to BABB and DISCO. It does not cause significant shrinkage or tissue damage and does not use as harsh a solvent as other solvent-based techniques. Tissue Clearing Pro Reagent 1 is part of our Tissue Clearing Pro kit (Cat. No. 7389) that can clear a whole mouse brain of up to 8 mm thickness in 24 hours; for sections with a thickness of 1 mm this can be achieved in 2 hours. For small tissues and thin brain slices (500 µm) that do not require permeabilization, only Tissue Clearing Pro Reagent 1 is required and tissues can be imaged in Tissue Clearing Pro Reagent 1.... Please see product specific page on www.tocris.com for full description.

Physical and Chemical Properties:

Physical Appearance: Clear liquid

Storage: Store at RT**Stability and Solubility Advice:**

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. *Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use
