

Certificate of Analysis

www.tocris.com

Product Name: ChromaLIVE™ Deep Red Non-Toxic Dye

Catalog No.: 9009

Batch No.: 1

1. PHYSICAL AND CHEMICAL PROPERTIES

Physical Appearance: Brown solution
Solubility: Soluble in DMSO (supplied pre-dissolved in DMSO, 1000x)
Storage: Store at -20°C

2. ANALYTICAL DATA

HPLC: Shows 99.6% purity

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use

Product Name: ChromaLIVE™ Deep Red Non-Toxic Dye**Catalog No.:** 9009**Batch No.:** 1**Description:**

ChromaLIVE™ Deep Red Non-Toxic Dye is a ready-to-use fluorescent probe for long term high content phenotypic screening of live cells. Optimised for live cell painting and morphological profiling in 2D monolayers, 3D spheroids or organoids, the dye provides multi organelle read out for unbiased classification of cell states such as proliferation, stress responses, autophagy, apoptosis or other phenotypic transitions. ChromaLIVE™ Deep Red Non-Toxic Dye can be used with NucleoLIVE™ Non-Toxic Dye (Cat. No. 8935) to get even more insight from live cell painting assays. Please refer to this protocol for further information on how... Please see product specific page on www.tocris.com for full description.

Physical and Chemical Properties:

Physical Appearance: Brown solution

Minimum Purity: ≥90%**Storage:** Store at -20°C

CAUTION - This product is light sensitive and we recommend that the solid material and any solutions obtained are protected from exposure to light.

Solubility & Usage Info:

Soluble in DMSO (supplied pre-dissolved in DMSO, 1000x)

Stability and Solubility Advice:

Some solutions can be difficult to obtain and can be encouraged by rapid stirring, sonication or gentle warming (in a 45-60°C water bath).

Information concerning product stability, particularly in solution, has rarely been reported and in most cases we can only offer a general guide. *Unless contradicted by product-specific protocols or instructions, our standard recommendations apply:

SOLIDS: Provided storage is as stated on the product label and the vial is kept tightly sealed, the product can be stored for up to 6 months from date of receipt.

SOLUTIONS: We recommend that stock solutions, once prepared, are stored aliquoted in tightly sealed vials at -20°C or below and used within 1 month. Wherever possible solutions should be made up and used on the same day.

Licensing Information:

Sold under license from Saguario Biosciences

Caution - Not Fully Tested • Research Use Only • Not For Human or Veterinary Use
